In terms of Section 3A(2) every provider, other than a representative, must adopt, maintain and implement a conflict of interest management policy which complies with the provisions of the Financial Advisory and Intermediary Services Act, 37 of 2002.

In terms of the General Code of Conduct a provider and a representative must avoid, and where this is not possible, mitigate any conflict of interest between the provider and a client, or a representative of the provider and his, her or its clients.

The FSP and its representatives are committed towards acting within the best interests of our clients and to avoid all conflict of interests in relation to the provision of financial services. Where we are unable to avoid a conflict of interest, we will take all necessary precautions to ensure that any actual or potential conflict of interest is mitigated and adequately disclosed to our clients.

In order to ensure the continued demonstration of our commitment, management has adopted a Conflict of Interest Management policy to provide for the effective management of any actual or potential conflicts of interest that may arise wholly or partially, in relation to the provision of financial services.

The purpose of the Conflict of Interest Management Policy is therefore to:

- establish internal controls and mechanisms towards the identification of conflicts of interest
- establish measures to avoid conflicts of interest, and where avoidance is not possible, to provide the reasons therefore
- establish measures to ensure that any unavoidable conflicts of interest are mitigated
- establish measures to ensure the proper disclosure of any conflicts of interest
- establish processes, procedures and internal controls to facilitate compliance with the policy
- communicate the consequences of non-compliance with the policy

3. IDENTIFYING A CONFLICT OF INTEREST

3.1 INDIVIDUAL IDENTIFICATION

The primary responsibility for the identification of a conflict of interest rests with the representatives, employees and individual members of the governing body of the FSP.

Throughout the process of rendering a financial service to a client, a representative must apply his or her mind to answering the following questions:

- is there any situation that exists that influences the objective performance of my obligations to my client?
- is there any situation that exists that prevents me from rendering an unbiased and fair financial service to my client?
- is there any situation that exists that prevents me from acting in the best interest of my client?

If the answer to all three questions is “no”, then there is no conflict of interest associated with the financial service and the representative may proceed.

If the answer to any one of the three questions is “yes”, the representative must proceed to answer the following additional questions:

- is the situation caused as a result of an actual or potential relationship with a third party? (see definition of “third party”)
- is the situation caused by an actual or potential financial or ownership interest? (see definition of “financial interest” and “ownership interest”)

If the answer to any one of these questions is “yes”, an actual or potential conflict of interest will have been identified.
